# Welcome Message

**Manish Kumar**  
Founder & Director

Dear Partner,

At The Orient T.C., we believe that trade is more than just moving goods across borders — it is about building trust, reliability, and long-term relationships. Every container we ship carries not only our products but also my personal assurance of quality, transparency, and care.

I started this firm with a simple goal: to make global sourcing from India frictionless and dependable. Over the years, I've seen how clarity, discipline, and genuine partnership can turn transactions into trust. That is the standard I've set for myself, my team, and every deal we undertake.

When you work with us, you won't just receive products — you'll gain a responsive partner who listens, adapts, and delivers. My door is always open, and I am personally involved whenever needed to ensure you experience zero surprises and zero compromises.

I look forward to working together and growing with you.

Warm regards,

**Manish Kumar**  
Founder & Director  
The Orient

# About us

Since 2025

## About Us

The Orient T.C. is a next-generation export house built to make international trade faster, simpler, and smarter. We specialize in Animal Feed Ingredients, Hydrocolloids & Gums, and Nutraceuticals & Extracts. By staying focused, we know our products inside out, work with trusted suppliers, and manage every step — quality control, compliance, and logistics — to ensure hassle-free imports and consistent supply for our partners.

## Who We Are

Founded in Jamshedpur, India's industrial hub, The Orient T.C. combines the discipline of engineering with the agility of a startup. The firm is led by Manish Kumar, an engineer from Delhi Technological University (DTU) — an institution known internationally for its challenging standards and for producing engineers of exceptional calibre. This technical foundation drives our approach: quality-driven, process-oriented, and solution-focused.

# Vision

To make Indian exports stand for specialization, trust, and world-class quality, becoming a preferred partner for feed ingredients, gums, and nutraceuticals worldwide.

# Mission

- 01 Deliver products that consistently meet international standards.
- 02 Simplify imports through clear communication and smooth logistics.
- 03 Build long-term, transparent partnerships.
- 04 Expand responsibly while staying focused on our core strengths.

# Motive

Our goal is simple: turn trade into trust. Every order is handled with care — from quality checks to documentation to timely updates — so buyers experience zero surprises and zero compromises.

# Our Products
